Your Elected Officials

Vote NO NAIS.

The National Animal Identification System – or NAIS – threatens small and family farmers, independent and organic farmers, independent ranchers, homesteaders and those who grow or raise their own food. NAIS gives big profits to big business, placing the interests of giant AgriCorps ahead of the interests of hardworking farmers of the Heartland, and ahead of the safety of our food supply. Furthermore, NAIS violates the United States Constitution, trampling the rights that belong to every American. Before you cast your vote - does your candidate support NAIS or support your rights under the U.S. Constitution?

Every Election Counts.
