AIN MANAGEMENT SYSTEM USER GUIDE

INTRODUCTION TO THE AIN MANAGEMENT SYSTEM

The AIN Management System is a Web-based program that administers AINs. The AINs are allocated to companies that manufacture official identification devices or technologies. Other individuals and organizations may perform roles that support the distribution of official identification devices to producers. The complete and accurate recording of the AINs distributed and assigned to each premises is imperative. The AIN Management System allows for many participants in various roles and provides the means to record AIN allocations to manufacturers and distribution to premises.

Key roles in the initial roll-out of the AIN Management System include AIN tag manufacturers, managers, and resellers. Manufacturers have specific roles and responsibilities regarding the manufacturing of AIN tags; managers and resellers have roles that support the distribution of AIN tags to producers' premises.

The manufacturers, managers, and resellers (distributors) are referred to as nonproducer participants. Each nonproducer participant will obtain a nonproducer participant number (NPN) through the premises registration system in the State in which the company's headquarters is located. For example, if the company's corporate office is in Kansas, the company will obtain an NPN through the Kansas premises registration system. All NPNs are unique seven-character numbers similar to PINs.

Manufacturers, managers and resellers must obtain a Level 2 eAuthentication account to have access to the authorized user options of the AIN Management System. eAuthentication is an identity verification system used by USDA to provide a single authorization for multiple USDA accounts. To begin the process, go to the eAuth website at http://www.eauth.egov.usda.gov/eauthWhatIsAccount.html.

AIN TAG MANUFACTURERS

AIN tag manufacturers are companies authorized by APHIS to manufacture approved identification devices and are responsible for the overall production and quality of the official identification devices that contain the AIN. Potential AIN tag manufacturers must submit an AIN tag manufacturer application to USDA. AIN tag manufacturers may only produce AIN tags with the AINs that have been allocated to them by APHIS. AIN tag manufacturers may also be AIN tag managers.

Note: For the purposes of the NAIS, companies that acquire the ID tag from another source and are responsible for imprinting the devices are considered the manufacturers and assume all responsibility for the product. In such cases, the company that imprints the tag submits the AIN tag manufacturer application and is the sole contact for APHIS regarding tag quality issues.

AIN tag manufacturers must:

1. Abide by the terms and conditions set forth in the AIN tag manufacturer agreement;

2. Complete the AIN tag manufacturer training program provided by USDA;

3. Imprint the "840" AINs allocated to them with the U.S. Shield on identification devices approved by APHIS*;

4. Maintain the uniqueness of the AINs allocated to them;

5. Imprint approved tags according to the specifications listed in table 1 of this document;

6. Report the shipment of all AIN tags to the AIN Management System according to established protocols prescribed in the NAIS Technical Supplement (provided on www.usda.gov/nais) within 24 hours of shipment;

7. Have an operational computerized system that communicates with the AIN Management System and is compatible with NAIS standards to maintain the necessary information, including a database of the manufacturer product codes for all devices that contain an AIN;

8. Furnish official identification devices to AIN tag managers;

9. Have a means to support the distribution of AIN devices through marketing agreements with AIN tag managers or be AIN tag managers themselves;

10. Provide a record (if applicable) to APHIS of all "transitional" AINs produced with a "USA" prefix (this format is referred to as the American ID numbering system) and their ICAR manufacturer number;

11. Agree to discontinue the printing of any identification numbering system as directed to do so by USDA if USDA terminates and phases out an official numbering system;

12. Maintain a record of inventoried AIN tags and have such records available to the USDA upon request; and

13. Enter the names of nonproducer participants that they wish to utilize as AIN managers into the AIN Management System, advising them that such designation requires participation in AIN manager training provided by USDA.

Note: One AIN tag is required to meet the definition/criteria for official identification. A second AIN tag for the same animal with the same AIN may be used when double tagging is preferred. Regarding AIN/RF tags, only one tag with the AIN encoded in the transponder is permissible.

AIN TAG MANAGERS

AIN tag managers are individuals, organizations, or companies that provide AIN tags to another AIN tag manager or reseller, or to a premises. The AIN tag manager must have an AIN tag distribution agreement with an AIN tag manufacturer(s).

In order to be an authorized AIN tag manager, the individual or firm must agree to abide by the following:

1. Complete the AIN tag manager training provided by USDA;

2. Distribute AIN tags only to a premises or entity that has either a PIN or NPN and validate the accuracy of the PIN or NPN;

3. Provide the validated PIN or NPN to the entity that ships the AIN tags when not completing the delivery themselves;

4. Maintain a record of inventoried AIN tags received from an authorized AIN tag manufacturer or another authorized AIN tag manager or returned from a premises, and have such records available to USDA upon request;

5. Submit to the AIN Management System within 24 hours (or close of next business day), in accordance with prescribed protocols, a record of all AINs shipped or delivered; and

6. Educate producers receiving AIN tags on the proper use of official animal identification devices.

The AIN tag manager confirm on-line, using the AIN Management System, that they have a marketing agreement with a specific AIN tag manufacturer(s). USDA will recognize the individual or entity as an AIN tag manager upon confirmation of the marketing agreement(s) and upon the AIN tag manager completing training.

AIN TAG RESELLERS

The AIN tag reseller has a marketing agreement with an AIN tag manager instead of the manufacturer. He or she assumes the same responsibility as an AIN tag manager, validating PINs and reporting the distribution of the AIN tags he or she ships or delivers to a premises. In order to be an authorized AIN tag reseller, the individual or firm must agree to abide by the following:

1. Complete the AIN tag reseller training provided by USDA;

2. Distribute AIN tags only to a premises or entity that has either a PIN or NPN and validate the accuracy of the PIN or NPN;

3. Provide the validated PIN or NPN to the entity that ships the AIN tags when not completing the delivery themselves;

4. Maintain a dated record of inventoried AIN tags received from an authorized AIN tag manager or another authorized AIN Tag Reseller, or returned from a premises, and have such records available to USDA upon request;

5. Submit to the AIN Management System within 24 hours (or close of next business day), in accordance with prescribed protocols, a record of all AINs shipped or delivered; and

6. Educate producers receiving AIN tags on the proper use of official animal identification devices.

The AIN tag reseller must confirm on-line, using the AIN Management System, that they have a marketing agreement with a specific AIN tag manager(s). USDA will recognize the individual or entity as an AIN tag reseller upon confirmation of the marketing agreement(s) and upon the AIN tag reseller completing training.

VALIDATE PIN/NPN

WHEN TO USE

When an AIN tag order or request is received, the AIN manager or reseller is responsible for validating the premises identification number (PIN) or Nonproducer Participant Number (NPN). The PIN or NPN must be validated to ensure that the ID number is valid and that the ID number identifies the appropriate premises or Nonproducer Participant before making the shipment or delivery of the AINs. The PIN or NPN must be reported to the AIN Management System with the shipment report of the AINs.

Contact	Type	City	State	Email
Mel Cooley	Primary	New Rochelle	NY	mel.cooley@barracudaltd.com
Buddy Sorrell	Sales	New Rochelle	NY	buddy.sorrell@barracudaltd.com

If the Nonproducer Participant has set up contacts for one or more of its locations, the contacts will be listed in the Nonproducer Participant Contacts section. You may choose to ship AINs directly to a contact by clicking on the contact's name. The Report AIN Shipment will be displayed with the contact's shipping information filled in. *(See the Report AIN Shipment section.)*

REPORT AIN SHIPMENT

WHEN TO USE

Whenever AINs are shipped from your entity to a Producer Premises or to a Nonproducer Participant, the shipment must be recorded, including the PIN/NPN of the recipient of the AINs, and which AINs have been shipped. Failure to report the shipment violates the agreement with USDA and will result in a broken event. *(See the Fix AIN Broken Events section.)*

Note: It is the responsibility of the NPN that has possession of the AIN tags to report its shipment and/or delivery. It is also the responsibility of the AIN tag manufacturer, when recording the first shipment and AINs, to indicate which type of tag (product name) the AINs have been applied to.

The Report AIN Shipment screen will be displayed.

There are three ways to enter which AINs you are reporting as shipped, indicated by the three tabs at the top of the AIN Shipment Information section: AINs, Package, and AIN Collection.

- "AINs" is for recording shipments of consecutive numbers, and which can be reported with a start and an end number.

- "Package" is for recording shipments of AINs which have been combined in a package at the manufacturer's facility.

- "AIN Collection" is for recording shipments of non-consecutive numbers. These numbers must be listed individually and/or as ranges of numbers.

Shipping AINs

You are here: AIN Management / Report AIN Shipment

AIN Shipment Information

AINs	Package	AIN Collection

Starting AIN: 840003000010361

Other Actions

Clear

With the AINs tab selected, you will need to enter the range of AINs you are shipping. To record AINs, type in the first AIN in the Starting AIN field. The AIN will begin with 840003. Type in the number of AINs being shipped in the Number of AINs Shipped field. The Ending AIN will be automatically calculated.

The Event Date will default to today's date. Type in the shipping date in the Event Date field, if different from today's date. Alternately, click on the calendar icon to select the shipping date from the Date Picker.

Note: You may choose a date earlier than today's date, but you may not choose a date later than today's date.

If AINs are being shipped for an order taken by another NPN, select the NPN of the entity which took the order from the Partner NPN dropdown menu. Selecting a Partner NPN indicates that the partner was responsible for validating the ship-to PIN/NPN for the order.

Type in the PIN of the Producer Premises or the NPN of the Nonproducer Participant to which the AINs are being shipped. Then click on the [Validate Number] button to validate the PIN or the NPN.

Note: The NPN that obtains the AIN tag order, or who is the direct contact with the Producer Premises or NPN, is responsible for validating the PIN or NPN (see Validate PIN/NPN section). The validated PIN or NPN is to be provided by this entity (referred to as the Partner) to the NPN that actually makes the shipment of the AINs. In this case, typing in the ship-to PIN/NPN provides a second opportunity to validate the PIN or NPN. The address, city, and state information is automatically filled in the appropriate fields for consideration when completing the shipment report.

- **The destination PIN/NPN was retrieved from the database.**

The screen shows that you have been nominated for the role of AIN tag reseller. The nominating entity's NPN and Name are displayed. However, the relationship is not active until you approve the relationship.

To approve the relationship, click the Approved check box. The relationship will then be shown to be active.

Note: Any relationship can be discontinued at any time by either the nominating or nominated entity by unchecking the Approved check box for the relationship.

REPORT AIN DISTRIBUTION

WHEN TO USE

Whenever you, as a third party, are reporting a shipment of AINs from a Nonproducer Participant to another Nonproducer Participant or a Producer Premises, where the AINs have not been in your possession, but you have processed the AIN order.

Note: This is an optional reporting procedure. The responsibility of reporting the shipping records remains with the entity that has possession of the AIN tag. This option is provided if the third party desires to submit a distribution record. It does NOT fulfill the requirements of the shipping NPN.

There are three ways to enter which AINs you are reporting as shipped, indicated by the three tabs at the top of the AIN Distribution Information section: AINs, Package, and AIN Collection.

With the AINs tab selected, you will need to enter the range of AINs you are reporting as shipped. To record AINs, type in the first AIN in the Starting AIN field. The AIN will begin with 840003. Type in the number of AINs being shipped in the Number of AINs Shipped field. The Ending AIN will be automatically calculated.

The Event Date will default to today's date. Type in the shipping date in the Event Date field, if different from today's date. Alternately, click on the calendar icon to select the shipping date from the Date Picker.

Note: You may choose a date earlier than today's date, but you may not choose a date later than today's date.

FIX AIN BROKEN EVENTS

WHEN TO USE

When an entity, whether an AIN tag manufacturer, AIN tag manager, or AIN tag reseller, fails to report a shipment of AINs, and those AINs are later reported as shipped by another entity, a broken event record is created. Notification by e-mail is sent to the last entity in the AIN History prior to the broken event. It is necessary to fix the broken events to ensure that the correct entity is reported as being in possession of the AINs.
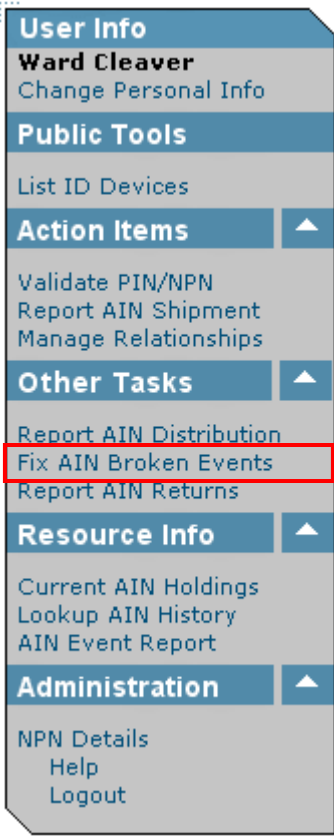

APPLICABLE ROLES AND FUNCTIONS

[Verify Broken Event]

[Reject Broken Event]

The Manage Broken Event screen will be displayed.

The screen will indicate the PIN or NPN for the next entity recorded in the AIN History, along with the date the AIN was shipped from that entity.

To process more than one AIN broken event record, type in the AINs in the Non-Consecutive AINs field. Use hyphens to indicate a consecutive series of AINs, and use commas to separate non-consecutive AINs.

Click on the [Validate Number] button to display information about the shipped-to entity.

Entity information for the reported PIN/NPN will be displayed.

If the AIN was shipped by you to the next reported PIN/NPN in the AIN History, click on the Verify Broken Event button to report the AIN as shipped.

If the AIN was shipped by you, but to an entity other than the next one reported in the AIN History, enter the correct PIN/NPN in the PIN/NPN field. Click on the Validate Number button to display information about the newly entered shipped-to entity. Then click on the Verify Broken Event button to report the AIN as shipped.

If the AIN was not shipped by you, and remains in your possession, click on the Reject Broken Event button to indicate that the next shipment in the AIN History was reported in error.

- **Success! The broken shipment was converted into an actual shipment.**

002NML6	Orwell	NJ	00EIEIO	McDonald	OH	08-04-2005	Shipped

The shipping history of the entered AIN will be displayed. We will examine each event in turn, and identify gaps (broken events) in the AIN History.

❶ The AIN was allocated by USDA to Brown, the AIN tag manufacturer (001TAGW).

❷ Brown (001TAGW) shipped the AIN to Orwell (002NML6).

001TAGW	Brown	IN	002NML6	Orwell	NJ	07-16-2005	Shipped
001TAGW	Brown	IN	00EIEIO	McDonald	OH	07-25-2005	Shipped
002NML6	Orwell	NJ	00EIEIO	McDonald	OH	08-04-2005	Shipped

❸ Since Orwell was previously shown to be in possession of the AIN, the next event should show Orwell as the Source. However, Brown is shown again as the Source of the shipment. This time, Brown (001TAGW) shipped the AIN to O'Derry (00DELL3). Obviously, Brown could not have shipped the same AIN simultaneously to two different destinations. This indicates a broken event.

When a broken event occurs, an e-mail is sent, notifying the responsible entity that the broken event needs to be fixed. But who is the responsible entity – Brown, Orwell, or O'Derry?

The responsible entity is assumed to be the last entity which had the AIN just prior to the broken event. Therefore, the e-mail would be sent to Orwell. The AIN Management System assumes, in this case, that both shipments reported by Brown are valid, but that Orwell did not report a shipment back to Brown.

It is now Orwell's responsibility to fix the broken event *(see the Fix AIN Broken Events section)*. Orwell will have two options:

1 – Report that the AIN was shipped back to Brown and *verify* the broken event. This would indicate that the AIN was again in Brown's possession, and would close the gap in the AIN History.

2 – Deny that Brown shipped the AIN to O'Derry and *reject* the broken event. This would indicate that Brown reported the shipment in error and that the gap in the AIN History was a mistake. *Note: The rejection of a broken event does not appear in the AIN History.*

Even though there is an unresolved broken event, the AIN History shows that the AIN is in O'Derry's possession at this point.

4

❹ O'Derry (00DELL3) submitted a return to Brown (001TAGW). Because O'Derry was the last entity shown to be in possession of the AIN, this event is valid, even though there is still an unresolved prior broken event. No new e-mail is sent.

6

❻ Brown (001TAGW) has again shipped the AIN to Orwell (002NML6). Since Brown was the last entity shown to be in possession of the AIN, this is a valid event. Due to this shipment, Orwell is now shown to be in possession of the AIN.

You are here: AIN Management / Lookup AIN History

7

8

This next two events show that the AIN was shipped to McDonald. But who shipped the AIN – Brown or Orwell?

❼ When Brown reported the shipment to McDonald, Orwell was the last entity shown to be in possession of the AIN. Therefore, Orwell will be sent an e-mail about the broken event.

❽ When Orwell reported the shipment to McDonald, McDonald was already shown to be in possession of the AIN. Therefore, McDonald will be sent an e-mail about the second broken event.

The AIN Management System shows that McDonald is in possession of the AIN. But who shipped the AIN to McDonald – Brown or Orwell? Either event ❼ or event ❽ is in error. If Brown shipped the AIN to McDonald, then event ❽ is in error. But if Orwell shipped the AIN to McDonald, then event ❼ is in error.

Remember, both Brown and McDonald have received broken event e-mails.

> Scenario 1 – Brown shipped the AIN to McDonald.
>
> Orwell would have shipped the AIN back to Brown before Brown could ship the AIN the McDonald. So Orwell would report that the AIN was shipped back to Brown and *verify* the broken event (event ❼). This would indicate that the AIN was again in Brown's possession, and would close the gap in the AIN History.
>
> McDonald would *reject* Orwell's shipment of the AIN (event ❽).
>
> Scenario 2 – Orwell shipped the AIN to McDonald.
>
> Since Orwell was still in possession of the AIN, Brown could not have shipped it to McDonald. So Orwell would *reject* the event (event ❼).
>
> McDonald would *verify* Orwell's shipment of the AIN (event ❽).

In order to fully resolve this conflict, both broken events must be addressed. Only one of the two can be valid, so one of them must be verified, and one must be rejected.

REPORT AIN RETURNS

WHEN TO USE

If AINs are returned to you from a producer premises, it is reported as an AIN Return. If AINs are returned to you from a Nonproducer Participant to which you have previously shipped AINs, the Nonproducer Participant must report that shipment. (Refer to the Report AIN Shipment section.)

Submit AIN Return

There are three ways to enter which AINs you are reporting as returned to you, indicated by the three tabs at the top of the AIN Shipment Information section: AINs, Package, and AIN Collection.

With the AINs tab selected, you will need to enter the range of AINs you are reporting as returned. To record AINs, type in the first AIN in the Starting AIN field. The AIN will begin

with 840003. Type in the number of AINs being returned in the Number of AINs Shipped field. The Ending AIN will be automatically calculated.

The Event Date will default to today's date. Type in the shipping date in the Event Date field, if different from today's date. Alternately, click on the calendar icon to select the shipping date from the Date Picker.

Note: You may choose a date earlier than today's date, but you may not choose a date later than today's date.

Type in the PIN of the producer premises which is returning the AINs in the (From) PIN field. Then click on the Validate Source Number button to validate the PIN.

- **The source PIN/NPN was retrieved from the database.**

You are here: AIN Management / Report AIN Returns

AIN Return

| AINs | Package | AIN Collection |

Available Actions

[Submit AIN Return]

If the PIN is valid, the information will be displayed.

Click on the [Submit AIN Return] button to report the AIN return.

- **The AIN(s) was/were successfully returned.**

The AIN Return will be recorded.

CURRENT AIN HOLDINGS

WHEN TO USE

Before you can apply AINs to ID tags, create packages of AINs, or ship AINs to a Producer Premises or Nonproducer Participant, you need to know what AINs are in your possession. Current AIN Holdings gives you this information. This includes all AINs which have been allocated to you, whether or not they have been applied to AIN tags, which have not been shipped to another entity.

APPLICABLE ROLES AND FUNCTIONS

AIN Tag Manufacturer	AIN Tag Manager/Reseller	Federal/State Health Official
✓	✓	✓

PERFORMING THE ACTION

Mfr Admin   *NPN Admin*   *Health Official*

To view which AINs are in your possession, click on Current AIN Holdings.

You are here: AIN Management / Current AIN Holdings

Nonproducer Participant Information

NPN: 002RNRC   Get Current Holdings

AINs

Mfr.Package Num	Start AIN	End AIN	# of AINs

The Current AIN Holdings screen will be displayed. Click on the Get Current Holdings but-ton to display a list of AINs currently in your possession.

You are here: AIN Management / Current AIN Holdings

Nonproducer Participant Information

NPN: 002RNRC   Get Current Holdings

AINs

Mfr.Package Num	Start AIN	End AIN	# of AINs
	840003000010361	840003000010385	25
002RNRCRFA0001	840003000010386	840003000010410	25
002RNRCRFA0002	840003000010411	840003000010460	50
003FKB4PBK0607	840003000016428	840003000016577	150

A list of all AINs in your possession will be displayed.

The first line shows a series of AINs which have not been placed in a package.

The second line shows a package of AINs which has been broken (the package number is black instead of blue).

The third line shows a package of AINs which you have created.

The fourth line shows a package of AINs which you have received from another entity (the first part of the Mfr Package Num shows the entity which created the package).

LOOK UP AIN HISTORY

WHEN TO USE

Use Look Up AIN History to determine what entity is currently or ever has been in possession of a specific AIN.

APPLICABLE ROLES AND FUNCTIONS

AIN Tag Manufacturer	AIN Tag Manager/Reseller	Federal/State Health Official
✓	✓	✓

PERFORMING THE ACTION

Mfr Admin   *NPN Admin*   *Health Official*

To view the history of an AIN, click on Lookup AIN History.

The Lookup AIN History screen will be displayed.

Type the AIN you want to track in the Animal Identification Number field. Be sure to accurately enter the entire 15-digit AIN. Then click on the Look Up AIN History button.

- **Success! AIN History found.**

You are here: AIN Management / Lookup AIN History

AIN History Search

NPN: 002RNRC

Animal Identification Number: 840003000010371

Look Up AIN History

Primary AIN ID: 840003000010371

AIN History Search Results

Source			Destination			Date & Event Type	
Premises ID	**Name**	**ST**	**Premises ID**	**Name**	**ST**	**Date**	**Event Type**
USDA			002RNRC			06-30-2005	Allocated

The shipping history of the entered AIN will be displayed. In this example, the record shows only that the AIN was allocated to the manufacturer. It has not yet been shipped to another entity.

Note: If you are an AIN tag manufacturer, manager, or reseller, you will only be able to view the history of AINs which have been in your possession at some time. If you are a State Health Official, you will only be able to view the history of AINs which have been shipped to a producer premises in your state.

Primary AIN ID:	840003000010371
Device Name:	RFID CC-305

If the AIN has been applied to an AIN tag by a manufacturer, the name of the device to which the AIN has been applied will be displayed.

Primary AIN ID:	840003000010371
Disease Program:	Scrapie
Scrapie Flock ID:	OK723
Device Name:	RFID CC-305

In cases where there are one or more secondary AIN IDs assigned to an AIN, such as with various disease programs, the Primary AIN ID will be displayed along with all secondary AIN IDs associated with it.

AIN EVENT REPORT

WHEN TO USE

Whenever you want to determine which AINs have been shipped, allocated, or returned, according to specific criteria, including source or destination entities, date ranges, device types, and AIN range.

Note: You will only be able to obtain a report for AINs which have been in your possession at some time.

To create an AIN Event Report, click on AIN Event Report.

The AIN Event Report screen will be displayed.

Enter the search criteria for the report you want to generate. As a minimum, either the NPN for the entity which shipped the AIN(s) (Source NPN), or the PIN or NPN for the entity which received the AIN(s) (Dest PIN/NPN), or the Scrapie Flock ID must be entered.

If entering *either* a source *or* destination NPN, it must be your entity's NPN. If entering *both* a source *and* a destination NPN, one of the two must be your entity's NPN.

Click on the [Get Event Report] button.

You are here: AIN Management / AIN Event Report

[Save User Roles]

To view and/or edit the roles and permissions assigned to the user, click on User Roles on the User Information screen. The User Roles screen will be displayed, indicating which roles are assigned to the selected user. Check or uncheck the User Role boxes to change permissions.

The logged-in user will be able to assign roles up to and including his own level. In this example, the logged-in user is a Manufacturer Admin. If the logged-in user is an NPN Admin, the available User Roles will be NPN Admin, NPN User, and Email Recipient.

*Note: If you are editing your own permissions, and you select and save a User Role lower than what is currently assigned to you, you will not be able to return to your previously assigned User Role. It will have to be reset by a user with a higher User Role. Therefore, it is strongly advised that you **do not** edit your own User Roles.*

Available Actions

Type the information for the user you wish to add in the appropriate fields. Select the state from the State drop-down menu. Be sure that all required fields are entered.

Make sure that the Email Address is entered correctly and is a valid address. When the new user is added, an email will be sent to the user giving instructions for logging into the application and supplying a PIN for the initial login.

When you have entered all the necessary information, click on the Save User Info button to create the new user and add him/her to the user list.

- **Success! The user was created. You can now add Roles or Phone information via the links near the bottom of the page.**

Available Actions

Add User

Click on NPN Users to return to the user list. The new user's name now appears in the list.

Note: Beginning with release 1.4.1, unless the NPN to which the new user is being added is an active NPN or a government location, the new user's status will be disabled by default. The new user can be enabled only by a System Administrator, and will be done only after the new user has successfully completed the required AIN Management System training.

Available Actions
User Roles
User Phones

After a new user has been created, click on User Roles to set the permissions for the user.

The User Roles screen will be displayed.

Check the User Role boxes to assign permissions. You will only be able to select User Roles from your own level down. You cannot select User Roles higher than your own. (For example, an NPN Administrator is only able to assign NPN Admin, NPN User, or Email Recipient as User Roles.)

When you have made your selections, click on the [Save User Roles] button to save the assigned roles.

A message will be displayed indicating that the User Roles have been assigned to the user.
